

## **Yukon Agricultural Association**

**Date:** July 6, 2021

### **Attendees:**

- YAA: Bernie Hoeschele
- DRPC: Char Luscombe and Tim Sellars

### **Notes:**

- Interested to know if the Dawson plan will serve as a model for other plans. YAA does have concerns about this and how it could affect land use.
- YAA is reviewing the plan to determine whether the recommended restrictions on development within bogs, marshes and fens will impact new agricultural initiatives and food security in Dawson.
- Beyond this, YAA is concerned that any restrictions on development within wetlands may set a precedent for other planning regions, where these categories of wetlands are more prevalent.
