

## VISION STATEMENT

The Dawson Region is an ancient and uniquely unglaciated landscape, with an abundance of natural resources and a diverse cultural legacy that contributes to the well being of all Yukoners.

People have been and continue to be an integral part of the landscape, acting as stewards to protect natural values, and working together as a community to realize opportunities for well-balanced economic growth.

Shared and respectful use of all resources contributes to a sustainable and self-supporting economy.

Ecological or cultural values are undiminished by the careful development of economic resources; ensuring healthy ecosystems and clean drinking water are enjoyed by future generations.

People engage in consensus building; working with purpose and in harmony to balance economic sustainability, quality of life and environment.

### Comments?

The Commission welcomes your input during preparation of the Dawson Regional Land Use Plan. Come visit us next door to the recycling depot in Dawson City, write us an email at [dawsonplan@planyukon.ca](mailto:dawsonplan@planyukon.ca) or call us toll-free at 1-866-800-9088.

## GOALS

### Economic Prosperity

*People with a diversity of perspectives and interests engage in consensus building to realize and benefit from economic, social and cultural opportunities.*

### Active Management

*Innovative, efficient and economical methods for integrated management of natural resources contribute to an enhanced quality of life and a healthy ecosystem.*

### Equitable Balance

*Economic, ecological and social outcomes are considered equally in decision-making about land use.*

### Stewardship

*All resources are used or conserved wisely to ensure benefits are enjoyed by future generations.*
