The Dawson Regional Planning Commission needs your help. This Draft Plan is the Commission's best attempt at balancing cultural, economic and environmental values with an eye to our vision: on the land we walk together.

Please come share your thoughts with Commission and staff, ask us questions and share your values and concerns. Staff will be available all day and there will be 3 facilitated discussions. Dinner will be provided at 6pm.

Thinking of community needs today and future generation needs tomorrow, are we on the right path?
