I just want to commend the Commission for their hard work and further, to ask them to do all they can to preserve the amazing life that this land has fostered. There is no denying that we are in the midst of an ecological crisis - a climate emergency, a rapidly

changing society, a global pandemic - and we must now be brave and bold and look beyond our current growth-model economy, to consider a preservation model instead. Now is the time to preserve and to save all that we can. I want my children to one day taste King Salmon. I want my grandchildren to eat moose meat. I want my great-grandchildren to hear the bird song we hear each spring. You have one small, important part to play in preserving what we can of this land for future generations. Please do all that you can. Mahsi.
